

# Idaho Firewise 2017

## Week 11:

Sunday, July 2nd, 8 to 12, 4 hours

- Deadheaded - *Coreopsis*, *Gaillardia*, *Papaver*, *Hemerocallis*, *Oenothera*, *Salvia*
- Watered nursery plants and transplants
- General weed removal in all main display areas, removed *Rosa* suckers in pathways, Phase 3

Monday, July 3rd, 1 hour

- Went in to water nursery plants + transplants before the July 4th holiday
- Added mulch around sparse areas including around the newly planted *Monardella* to encourage better water retention

Wednesday, July 5th, 8:30 to 1:45, 5.25 hours

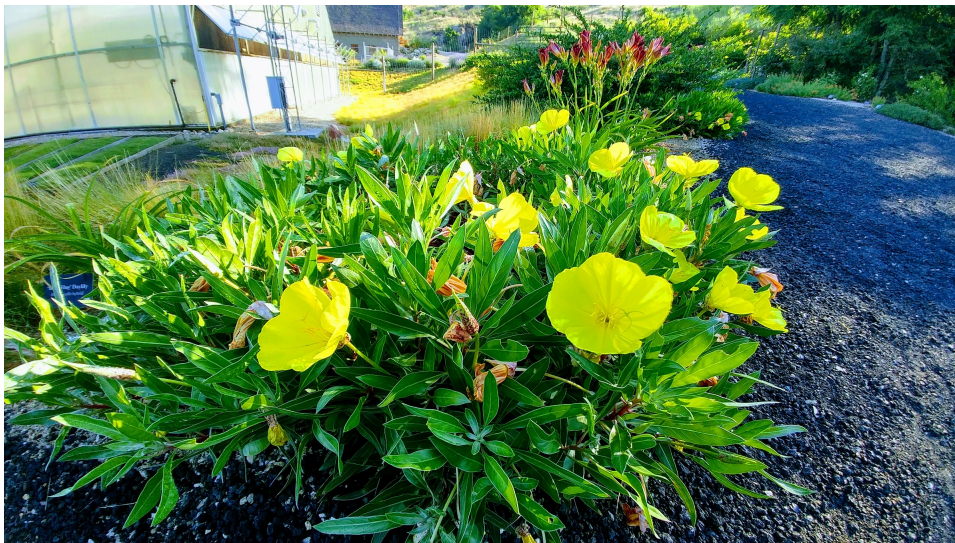

- Raked all pathways before any foot traffic/visitors would begin showing up
- General weed removal throughout entire garden except for Phase 3 and 4 slopes
- Deadheaded - *Coreopsis*, *Gaillardia*, *Oenothera*, *Dianthus*, *Hymenoxys*, green mat *Penstemon*
- Watered nursery plants, transplants, + sheep fescue knoll in Phase 2

Friday, July 7th, 8:30 to 2, 5.5 hrs

- Turf plot day, push mow + line trim... had mechanical issues with the line trimmer, trouble shooting with Brett's help
- *Delosperma* discussion/maintenance - it may be necessary to deadhead at this time of year to maintain overall health and to discourage dieback
- Watered nursery plants, transplants, and *Vinca/Humulus* area

Saturday, July 8th, 7 to 12, 5 hours

- Raked all pathways for the morning
- Finished part of the *Delosperma* project, removed a large section that had died back, debris removal, then added granite mulch as a top dressing
- Deadheaded - *Delosperma*, *Coreopsis*, *Gaillardia*
- Watered in all crucial areas before leaving

Total Hours: 20.75

Week 12:

Vacation week, 0 hours
