

Please Note:

The Firewise Landscape Certificate from Idaho Firewise, Inc. is good for up to two years from the examination date. We are asking those individuals that would like to keep their firewise certificate “in-good-standing” to complete CEUs regularly. A CEU will need to be completed within 12-24 months of the initial certificate or latest CEU. Most CEUs take approximately 1-2 hours to complete.

Please submit CEU inquiries to Andrea Dorman, Horticulturist & Southwest Idaho Program Manager: andrea@idahofirewise.org or to our general “Every Yard Counts” email address eyc@idahofirewise.org

CEU options include but are not limited to:

1). **Tour the Idaho Firewise Garden** (adjacent to the Idaho Botanical Garden) with an Idaho Firewise staff member or volunteer. *Please note, we can schedule tours at any time of year, let us know what season interests you the most if you select this option. Small groups of people can be accommodated.

2). **A write-up** (e.g. short essay) of an example of your work towards creating more fire-resilient landscapes. This could include a description of a consultation you had with a client, a current or completed landscape install, or a firewise landscape design concept. Photos, a plant list, or design example would be a great addition to the write-up to provide more context, but is not a requirement. Please submit your write-up and any accompanying documents via email.

3). **Renew online**, select the option that interests you the most: **a)** complete a questionnaire based on information found on the Idaho Firewise website; **b)** fill out a personalized firewise plant database with examples that fit the Home Ignition Zone model; **c)** retake the examination.

4). **Hybrid online/site-visit.** Photo submission(s) and completed questionnaire based on a site visit to any of the Idaho Firewise Garden Network sites.

5). **Attend a class**, seminar, or workshop (in-person or online) that has fire education as the focus. Please submit a brief class summary including details such as the presenter, date/time, overview of the class and other pertinent information for proof of attendance.

6). **Volunteer** an hour of your time to garden with us at our main demonstration site. Please allow additional time for scheduling and staff availability if you select this CEU option.
